

A Where creative intervention enters

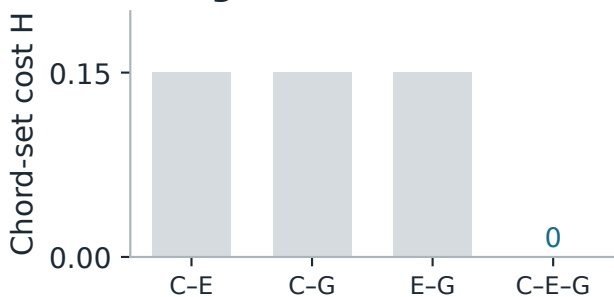

B Event preservation

Illustrative example: $u = 0.5 + t/2$; 14 occurrences preserved.

C A higher-order harmonic commitment

A chord is evaluated as a set.

$$\hat{H}(\{C, E, G\}) = 0 - 3(0.15) = -0.45$$

Nonzero third-order interaction
on the original pitch-class indicators.

Not a perceptual effect size.
